

WEEKLY VOZ TOTAL TV WEBSITE REPORT GUIDELINES

Guidelines to using the weekly VOZ National Total TV Consolidated 7 website reports

Introduction

This document provides a quick guide to the weekly Virtual Australia ('VOZ') reports that are posted at <https://virtualoz.com.au/>

What is VOZ?

VOZ is the foundation of Australia's new Total TV reporting standard, enabling all-screen, cross-platform planning and reporting.

VOZ brings together broadcaster* content viewed on:

- a) TV sets: 'linear TV', which is measured by OzTAM and Regional TAM's TV ratings services, plus;
- b) Connected devices: 'BVOD', or broadcaster video on demand, which is measured by OzTAM's VPM reporting service.

What are the weekly VOZ National Total TV Consolidated 7 reports?

The weekly VOZ website reports are a fixed set of predefined weekly reports based on national Consolidated 7 'What Watched' data.

The website reports provide a top line snapshot of de-duplicated national Total TV viewing across the most recent Consolidated survey week.

What is 'What Watched' data?

'What Watched' relates to measurement and reporting of viewing to linear TV content, whether live or in playback, attributed to the time of original broadcast (e.g., OzTAM and Regional TAM Consolidated 7 ratings).

What reports are available on the VOZ website?

For each survey week (Sunday to Saturday) across the calendar year three reports are made available:

1. Total TV Top 20 Programs

National (by episode) ranked on Total People and People 25-54 for all participating free-to-air (FTA) broadcasters plus their affiliates combined, detailing the contribution of linear TV and BVOD viewing in metro and regional markets.

- **Top 5 Programs (by episode)** ranked on Total People and People 25-54 per participating FTA broadcaster plus their affiliates.

2. BVOD Top 20 Programs

National (by episode) ranked on Total People and People 25-54 for all participating FTA broadcasters plus their affiliates, detailing the contribution of BVOD viewing in metro and regional markets.

- **Top 5 BVOD Programs (by episode)** ranked on Total People and People 25-54 per participating FTA broadcaster plus their affiliates combined.

3. Total TV Consolidated 7 Reach

National by week (02:00-02:00) for all participating broadcasters including STV channels for select demographics**, detailing the:

National, metro and regional weekly cumulative reach '000s ('only', 'only', 'both'):

- audience that was reached by broadcaster content exclusively via linear TV (viewed at least 1 minute) or BVOD (viewed at least 15 seconds) 'only'; and,
- audience that was reached by broadcaster content via linear TV (viewed at least 1 minute) as well as BVOD (viewed at least 15 seconds) 'both'.

National weekly cumulative reach % ('only', 'only', 'both'):

- linear TV or BVOD 'only' (i.e., incremental BVOD reach)
- linear TV as well as BVOD ('both')

More extensive and granular VOZ data is available to OzTAM and Regional TAM elemental data subscribers, which they can use in their respective reporting.

VOZ National Audience

The VOZ 'linear TV National' audience '000s combine metro ('Linear TV Metro') and regional ('Linear TV Regional') de-duplicated viewing in overlap market panel homes (e.g, Central Coast, Gold Coast). Linear TV Regional also includes the new market, 'Rest of Australia'.

This means the sum of the OzTAM and Regional TAM audience '000s from currency TAM data services will differ slightly from 'Linear TV National' '000s reported within VOZ.

'BVOD Metro' and 'BVOD Regional' audience '000s represent VPM viewing allocated to the respective TAM service markets. The sum of these will differ slightly from 'BVOD National' '000s reported within VOZ, to account for BVOD viewing in overlap markets and outside of regional and metro TAM coverage areas.

Sourcing VOZ data

Please state the week you're referencing, cite 'VOZ Consolidated 7 data', and indicate whether you are citing linear TV, BVOD or Total TV, and also whether you're referencing metro, regional or national VOZ data.

Reporting frequency

Weekly on Fridays for the most recent Consolidated 7 week i.e., w/c Sunday July 4 to Saturday July 10 will be available on Friday July 23, 2021.

* Broadcaster content comprises viewing of free-to-air and subscription broadcasters' linear TV and BVOD services. This includes viewing through in-home TV sets (both live and played back within 7 days) and on connected devices such as connected TVs, desktop/laptop computers, tablets and smartphones. Participating BVOD broadcasters, ABC, Seven Network, Nine Network, Network 10, SBS and Foxtel.

** Total People, People 0-17, People 18-24, People 25-39, People 40-54, People 55-64, People 65+
